PROFILE

Computer Engineering graduate with hands-on industry experience in full-stack development, REST APIs, workflow automation, AI integrations, and database-driven applications. Strong foundations in OOP, DSA, DBMS, MVC, SDLC, and Agile.

EXPERIENCE

Software Developer / Automation Trainee 2026 – Present

AutoAppy *Pune, India*

- Built API-driven business automations using REST APIs, webhooks, JSON, conditional routing, and third-party integrations.
- Integrated Meta WhatsApp Cloud API and Instagram APIs for automated messaging, comments, DMs, and social media workflows.
- Built custom client mini-apps in code (Leads CRM, direct-selling management, fintech wallet, coaching institute) with database design, CRUD APIs, and WhatsApp automation.
- Implemented appointment booking with Google services, automated reminders, Sheets data management, and Instagram content publishing; debugged with Postman and cURL.

AI Developer Intern Jan 2025 – Mar 2025

Nexmize *Nashik, India*

- Built AI chatbots and automation workflows using API integrations, prompt engineering, RAG concepts, n8n, and Make.com.
- Implemented backend workflow logic and third-party integrations using Git-based workflows.

Full Stack Web Developer Intern Oct 2024 – Dec 2024

AICTE *Remote*

- Developed a full-stack application with MVC, REST APIs, authentication, CRUD operations, and database integration.
- Tested and deployed database-driven modules using Git workflows.
